SAFARI symposium ends

SPECIAL CORRESPONDENT

KOCHI

The second international symposium of the Societal Applications in Fisheries and Aquaculture Using Remote Sensing Imagery (SAFARI), organised by the Central Marine Fisheries Research Institute, concluded here on Wednesday.

The theme of the three-day symposium was “tap-

ping satellite and remote sensing technologies to improve the fisheries sector”.

Sixty-three papers were presented at various sessions that dealt with themes like bio-diversity, aquatic environment and ecology, harvest fisheries, and fisheries management.

A special discussion was held on disaster management in the wake of Cyclone Ockhi.
