Taxonomy

Kingdom	Phylum	Class	Order	Family
Animalia	Chordata	Actinopterygii	Pleuronectiformes	Paralichthyidae

Scientific Name: *Cephalopsetta ventrocellatus* Dutt & Rao, 1965

Synonym(s):

- *Cephalopsetta ventrocellata* Dutt & Rao, 1965

Assessment Information

Red List Category & Criteria: Data Deficient [ver 3.1](#)

Year Published: 2020

Date Assessed: August 13, 2019

Justification:

This small-sized, deep-water flatfish is known from the northern Indian Ocean. It is not targeted but is taken as bycatch in demersal trawl fisheries. Limited information is available regarding population size and trends or potential threats. Therefore, it is listed as Data Deficient.

Geographic Range

Range Description:

This species is known from Oman to India east to the Andaman Sea (Dutt and Rao 1965, Hensley and Amaoka 1989, Manilo and Bogorodsky 2003). It is found at depths ranging from 60 to 300 metres (Manilo and Bogorodsky 2003).

Country Occurrence:

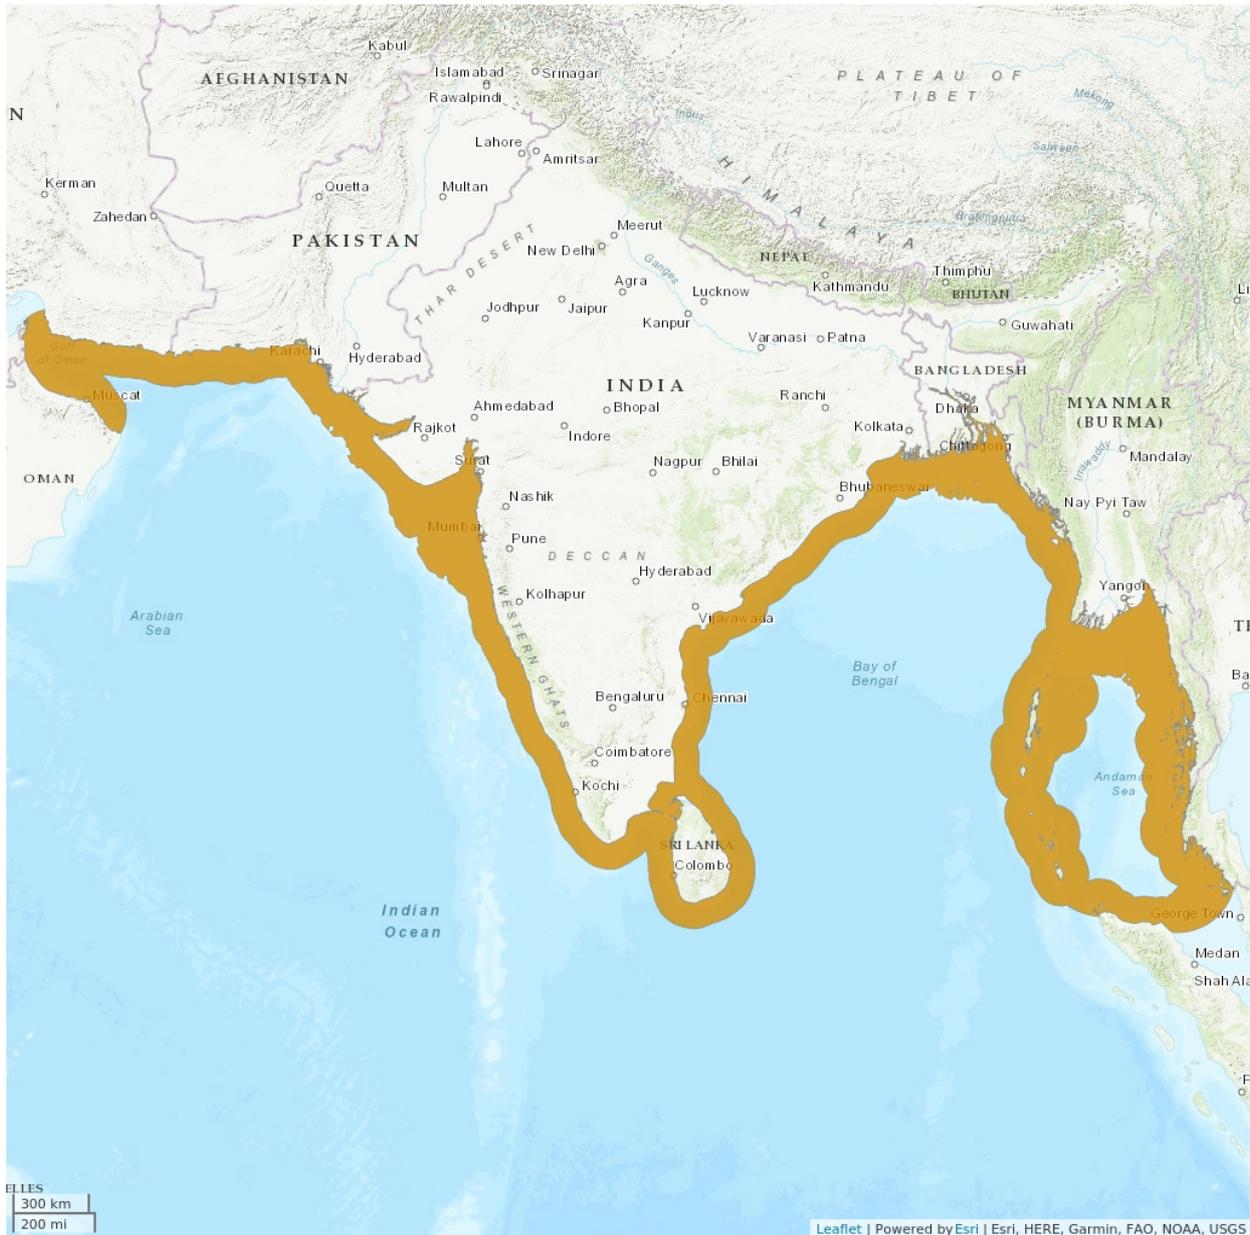

Native, Extant (resident): Bangladesh; India; Indonesia; Iran, Islamic Republic of; Malaysia; Myanmar; Oman; Pakistan; Sri Lanka; Thailand; United Arab Emirates

FAO Marine Fishing Areas:

Native: Indian Ocean - eastern

Native: Indian Ocean - western

Distribution Map

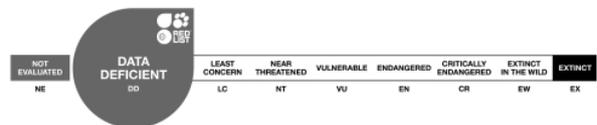

Legend

EXTANT (RESIDENT)

Compiled by:

IUCN Marine Biodiversity Unit/GMSA 2020

The boundaries and names shown and the designations used on this map do not imply any official endorsement, acceptance or opinion by IUCN.

Population

No population information is available.

Current Population Trend: Unknown

Habitat and Ecology (see Appendix for additional information)

This species occurs on muddy and sandy bottoms on the continental shelf from 60-300 m (Manilo and Bogorodsky 2003). This species attains a maximum size of 23.4 cm standard length (R. Nair, unpublished data).

Systems: Marine

Use and Trade

This species is taken in demersal trawls and gillnets (Psomadakis *et al.* 2015). This species is taken in demersal trawls and gillnets (Psomadakis *et al.* 2015), but little is known about population-level effects.

Threats

This species is taken in demersal trawls and gillnets (Psomadakis *et al.* 2015), but little is known about population-level effects.

Conservation Actions

No species-specific conservation measures are in place.
