On a humpback dolphin, washed ashore at Seeniappa Durgah, Gulf of Mannar

V. VENKATESAN AND N. RAMAMURTHY Mandapam Regional Centre of CMFRI, Mandapam Camp

dead dolphin was washed ashore at Seeniappa Durgah along the Gulf of Mannar coast on 22-10-2007. It was identified as humpback dolphin Sousa chinensis (Osbeck) with the help of external

Table 1. Morphometric measurements (cm) of *Sousa chinensis* (Osbeck) washed ashore at Seeniappa Durga.

| Commence (Commence and Commence | |
|--|------|
| Diameter of eye | 2.5 |
| Tip of snout to notch of caudal fluke | 228 |
| Tip of snout to origin of dorsal fin | 100 |
| Tip of snout to centre of eye | 39.4 |
| Tip of snout to blow hole | 41 |
| Tip of snout to origin of flipper | 62.5 |
| Tip of snout to centre of anus | 162 |
| Length of flipper along outer margin | 36 |
| Length of flipper along inner margin | 25 |
| Length of dorsal fin along outer margin | 41.5 |
| Length of dorsal fin along inner margin | 12.3 |
| | |

| Height of dorsal fin | 18.7 |
|-------------------------------|------|
| Width at anal region | 35.4 |
| Depth at origin of flipper | 42 |
| Depth at origin of dorsal fin | 70 |
| Depth at origin of eye | 13.8 |
| Length of upper jaw | 32 |
| Length of lower jaw | 31 |
| Fork length from tip to tip | 54.9 |

characters especially the number of teeth. The specimen was a female of 228 cm in length and 100 kg in weight having deep cut at the ventral region which might have been caused by a boat propeller. The morphometric measurements of the humpback dolphin is given in Table 1. From local fishermen, it was understood that one more dolphin of same size belonging to same species was washed ashore fourteen days before.
