PREFACE

For an informed management regime to ensure sustainability of the marine fisheries, it is essential not only to have reliable information on the status of marine fish resources along with fishing effort expended but also the number of fishing villages, landing centres, fisherfolk population, their occupation status, fishing crafts, fishing gears and other related parameters. With this objective, the Central Marine Fisheries Research Institute (CMFRI), Cochin has been conducting frame surveys at periodic intervals. Marine fisheries census on an all India basis was last conducted by CMFRI during May –July, 1980. Since the last census, the marine fisheries in India have witnessed both qualitative and quantitative changes. Post 1980 was also been a period where a number of management/policy interventions were made by the Government of India and the maritime states for ensuring sustainability, conservation of resources and to protect the interests of artisanal fishermen. Surely, the policies and interventions need to be reviewed and fine tuned in view of the highly dynamic nature of marine fisheries. For this a strong realtime and reliable database on various aspects of marine fisheries is essential. Recognising such a need, Department of Animal Husbandry, Dairying & Fisheries (DAHD&F), Ministry of Agriculture (MOA), Govt. of India, has taken up during the 10th Five Year Plan, a programme on Strengthening of Database and Information Networking for Indian Fisheries Sector in which Marine Fisheries Census is a major component. Recognising the expertise and experience of CMFRI in conducting such massive census surveys, the DAHD&F, MOA has entrusted the task of conducting the All India Marine Fisheries Census in the mainland to CMFRI.

Frame of the survey, namely, the marine fishing villages available with CMFRI was validated and updated with the latest information obtained from the respective maritime states. After identification of census parameters such as the population size, education, religion, occupation, number of crafts and number of gears etc., the necessary schedules were designed to collect information and these were approved by the Technical Monitoring Committee set up by DAHD&F, MOA.

The census was conducted in two phases with the first phase covering all the maritime states and Union Territories except Tamil Nadu and Pondicherry which were covered during second phase. The first phase was conducted during April-June, 2005

and the second during November-December, 2005. Over 300 CMFRI staff (Scientific and Technical) supervised the field level and zonal level census operations ensuring proper collection of relevant data. A total of 1,492 field enumerators mostly drawn from the fishing communities/fishing villages covered 3,202 marine fishing villages. After completion of the census in both the phases, the data were sent to headquarters for processing and preparation of reports. The software required for data entry, data validation and processing was developed by the scientists of Fishery Resources Assessment Division, CMFRI.

The final report (containing two parts) on the marine fisheries census on an All India basis with respective state summaries including the scope, census parameters, their definitions, the types of schedules and instructions for collection of data was released by Shri.P.M.A. Hakeem, I.A.S., Secretary, DAHD&F, Ministry of Agriculture, Govt of India on 25 July 2006 at Krishi Bhavan, New Delhi.

The rapid census exercises and the information supplied by the state department resulted in the finalization of 222 marine fishing villages spread over nine districts in Kerala. Conscious efforts were made to avoid villages that were estuarial and other inland fishery regions. Further in the villages only those households were selected where at least one member of the family was involved in marine fishing or allied activities. This publication (Part III of the Census report) summarises the districtwise census data of Kerala covering a range of information right from the population bifurcation among Kerala fisherfolk to the ownership pattern of different craft, either full or partial. For a better understanding of the craft and gear ownership vis-à-vis occupational fishing, specially assorted information on number of households, which thrives by fishing without any wherewithal, has also been presented. Such incisive processing will be of much use to the planners and state authorities, whose primary objective is targeted towards the 'have-nots' of fishery. This report contains an exhaustive list of fishing villages of Kerala along with their socio-occupational profile including the craft and gear infrastructure segregated sector-wise.

I take this opportunity to thank the DAHD&F and the Indian Council of Agricultural Research (ICAR) for entrusting CMFRI with this onerous responsibility, which has been completed within a reasonable time span. Special mention is required to laud the role played by CMFRI personnel especially, Dr. P.N. Radhakrishnan Nair, SIC, Calicut Research Centre of CMFRI, Dr. A.P. Lipton, SIC, Vizhinjam Research

Centre of CMFRI, Shri. K. Balan, Principal Scientist and the associated scientific and technical staff who made this venture a success with their dedicated and tireless efforts. I hope this report in this current shape and form will be of immense utility to the quintessential observer of Indian Marine Fishery.

SUMMARY

Marine Fisheries Census 2005 was carried out in nine districts of Kerala namely, Trivandrum, Kollam, Alleppey, Ernakulam, Trichur, Malappuram, Kozhikode, Kannur and Kasargod during April-June, 2005. The scope, time frame, parameters, their definitions and types of schedules used are described in Part I and Part II of the Marine Fisheries Census Report. The salient features are summarised below:

- There were 222 marine fishing villages in Kerala. Trivandrum district has the maximum (42) and Kannur district has the minimum (11).
- The total number of fishermen households was 1,20,486 in which the maximum households were in Trivandrum district (28%) and the minimum in Kasargod district (4%).
- Marine fishermen population in Kerala was 6,02,234. Adult male constituted 35.5%, adult females 35.5% and children 29% of the population. Average population per village was 2,713 and the average family size was 5. Fishermen concentration was higher in Malappuram district and lower in Kollam district. Female to male ratio was 979 for 1,000 males.
- In Kerala 28.5% of the fishermen possessed primary level of education, 36.3% secondary level and 8% possessed above secondary level of education. 27.2% of the fishermen had no formal education.
- About 42% of the fisherfolk families were Christians, 31% Hindus and 27% Islam. More than 1.5% of the families belonged to either scheduled caste or scheduled tribe.
- Active fishermen constituted 23% of the marine fisherfolk population of which 88.5% were engaged in full time fishing, 7.5% part time and 4% occasional. Full time fishermen were higher in Trivandrum district.
- Nearly 12% of the fisherfolk earned their livelihood from allied activities like marketing, making/repairing nets, curing/processing, peeling, labour and other fishery related activities. Most of the males were engaged in the occupation such as labour (44%), making/repairing of net (15%) and marketing (14%). While female involvement was higher in marketing of fish (37%), peeling (22%) and making/repairing of nets (11%).

Marine Fisheries Census 2005

- 30% of the fisherfolk were having membership in co-operative societies out of which 66% were in fisheries co-operative societies. Co-operative membership was maximum in Trivandrum district.
- Trawlers (72%), ring seiners (8%) and gillnetters (7.8%) were the main crafts of the mechanized sector. There were 29,177 crafts **in the fishery** employed in marine fishing of which 5,504 were mechanized; 14,151 were motorized and the rest non-motorised.
- Kerala marine fisherfolk **owned** 19,173 crafts out of which 7% were mechanized 44% were motorized and the remaining 49% were non-motorized crafts. Number of families having shares in crafts was maximum in Kozhikode district.
- Number of gillnets in Kerala was given as number of pieces. 202,416 pieces of gillnets are owned by the fisherfolk.
- Important gears of Kerala were gillnets, hooks and lines, troll lines, drift nets, seines and trawl nets. Sharing pattern is more visible in seines, trawl nets and drift nets.
- Nearly 66% of the fisherfolk families involved in fishing possessed neither craft nor gear.
- Only 4.4% of the fisherfolk families was found to own some electronic gadgets/life saving equipments.
- In Kerala nearly 75% of the houses where marine fisherfolk families live were found to be pucca houses and the maximum was in Alleppey and Kannur districts.
- There were a total of 765 educational institutions in the fishing villages of Kerala with an average of 3.5 institutions per village.
- All the marine fishing villages were electrified and 99% were connected by road.
- There were 414 curing yards, 320 ice factories, 153 peeling sheds, 112 boat yards and 56 freezing plants in the fishing villages of Kerala.
