Cadalmin™ Varna

Marine Ornamental Fish Feed

- 'Varna' is a scientifically evaluated, slow sinking marine ornamental fish feed.
- Constituents: 38% protein, 9% fat, 39% carbohydrates, 7% ash (minerals) and less than 2% fiber. Contents are marine protein, soy protein, wheat flour, oil vitamins, minerals, colour imparting nutrients like carotenoids from natural sources, immune promoters, probiotics and antioxidants.
- Availability in particle size: 0.25mm, 0.75 mm and 1 mm.
- Recommended usage: Feed 2-3 % of the fish body weight once in a day.

Cadalmin™ **GAE**

Natural in every sense

- A 100% vegetarian nutraceutical from nature for joint pain and arthritis
- GAE is a natural alternative to synthetic nonsteroidal anti-inflammatory drugs (NSAIDs) without any harmful side effects
- A highly cost-effective and indigenous product

(Indian Council of Agricultural Research, New Delhi)

PREFACE

Marine fishery resources are renewable and limited, therefore management of the harvest of marine fishery resources is necessary for sustained production from the sea. Towards this, it is very much essential to have reliable and updated knowledgebase on status of marine fishery resources, fishing effort expended, number of fishing villages, number of landing centres, fisherfolk population, their educational status, occupational status, infrastructure facilities existing in fishing villages, fishing crafts, fishing gears etc. For generating such information the Central Marine Fisheries Research Institute (CMFRI), Cochin has been periodically conducting frame surveys. The first marine fisheries census was conducted by CMFRI in 1980 with the support of Ministry of Agriculture. Second marine fisheries census on all India basis was conducted during 2005. Dynamic changes have taken place in the fishery and there were many management interventions introduced by the state and central governments from time to time. Changes have also taken place in the crafts and gear, fisherfolk population structure, availability of resources and their spread, infrastructure facilities, educational status etc.

In view of the dynamic nature of the marine fisheries sector, the policies and interventions need to be reviewed periodically. Reliable updated real time data on different aspects of marine fisheries is very much essential for developing suitable policies and interventions. The Department of Animal Husbandry Dairying and Fisheries (DAHDF), Ministry of Agriculture, Government of India during the 11th five year plan has taken up a central sector scheme on "Strengthening of database and Geographical Information System for fisheries sector" with Census on Marine Fisheries as one of the components which was assigned to CMFRI for the second time, considering the expertise and experience in conducting the massive census on all India basis.

The list of marine fishing villages for the different maritime states and union territories formed the frame for the census, which was updated

with the most recent information received from the respective state fisheries departments. This information was validated by conducting a pre-census survey. In addition to the task of selection of enumerators for the conduct of census operation, information on number of households in each village was also collected during the pre-census survey. The necessary schedules for collection of information from marine fishermen households were developed by conducting a series of workshops at CMFRI headquarters, regional and research centers. The data collection schedules so developed was approved by the Technical Monitoring Committee set up by the DAHDF. Workshops and trainings were also conducted at different locations for the field level supervisors and enumerators regarding the filling up of different schedules. Instructions were also prepared and distributed to field level supervisors and enumerators on each item of entry in the schedules. The census was carried out through 2,074 enumerators in 3,288 marine fishing villages and information from 8,64,550 households were collected. The entire operation was carried out under the supervision at different levels by the scientists and technical staff of CMFRI. The schedules used for enumeration were bilingual, both in English and local language.

The final report is in two parts, Part I with information at national level and the Part II is for each maritime state. The scope, time frame, parameters, definitions, type of schedules etc. are also described in Part I. This document is a consolidated report for the state of Andhra Pradesh, covering 555 marine fishing villages along the nine coastal districts, which provides districtwise information on marine fishing villages, fish landing centres, population structure, educational status, socio-economic profile, occupation together with the ownership pattern of crafts and gears among fisherfolk. It is also intended to provide a summary of the crafts in the fishery and the infrastructure facilities available in the marine fishing villages in the state.

It is my pleasure to use this opportunity to thank the DAHDF and the Indian Council of Agricultural Research (ICAR) for having trust in CMFRI in its ability to take up the arduous task of carrying out the National Marine Fishery Census 2010. At this juncture I take the opportunity to thank the DAHDF for accepting the CMFRI national marine fisheries data (after reconciliation with states) as the official data of Government of India. I thank the state fisheries department for extending all the supports for the successful conduct of census. The sincere and hard work carried out by Fishery Resource Assessment Division staff of CMFRI need special mention and I thank each one of them. Special thanks are due for all the scientific, technical and administrative staff who were involved in one way or other in the conduct of census. Finally, appreciations also go to Dr. G. Maheswarudu, Scientist-in-Charge, Visakhapatnam Regional Centre and Dr. H. Mohamad Kasim and Dr. G. Mohanraj, former Scientists-in-Charge, Madras Research Centre of CMFRI for the support and help rendered in completing this program successfully. I am sure this report will be of enormous use to all associated with the development of marine fisheries.

(G. Syda Rao)

SUMMARY

Marine Fisheries Census 2010 was carried out in nine coastal districts of Andhra Pradesh namely, Srikakulam, Vizianagaram, Visakhapatnam, East Godavari, West Godavari, Krishna, Guntur, Prakasam and Sri Potti Sri Ramulu Nellore (called as Nellore in short) during April-May, 2010. The scope, time frame and terms used are described in Part I of the Marine Fisheries Census Report. The significant features are summarized below.

Fishing villages and landing centres

- There are 555 marine fishing villages wherein fishermen reside. The maximum number was in Srikakulam district (128) and minimum was in West Godavari district (7). The number of fishing villages in the remaining districts varied between 20 and 97.
- The total number of landing centres in the state was 353, of which 100 belonged to Nellore district and the minimum number of landing centers was in West Godavari district (7).

Population

- There were 1,63,427 fishermen families in the state with a total population of 6,05,428. The maximum number of families were in East Godavari district (44,476) followed by Visakhapatnam district (28,779).
- Of the total fisherfolk population, East Godavari district accounted for 27%, followed by Visakhapatnam (19%), Srikakulam (16%) and Nellore (11%) districts.
- Among 1,63,427 fishermen families, 98.5% belonged to traditional fishermen.
- The average number of families in a village was 294, with 1091 persons per village.
- The average family size was 3.7 with a maximum 4.05 in Vizianagaram district and a minimum 3.29 in Krishna district.
- Adult males and females constituted 31.5% each and children 37% of the marine fisherfolk population in Andhra Pradesh.

- Women formed 48.5% of the population and the female to male ratio was 943 for 1000 males. This ratio was maximum in East Godavari district (970) and minimum in Nellore district (910).

Poverty

- There were 1,59,101 (97%) families below poverty line.
- Majority of the fishermen families were below poverty line in Srikakulam, Vizianagaram, Krishna, Guntur and Nellore districts.

Education

- In Andhra Pradesh 34% of fisherfolk (excluding children below 5 years) were educated with different levels of education.
- About 18% of the fisherfolk had primary level of education, 13% had secondary level, 3% had above secondary level and the rest 66% of the population was unschooled.
- Nearly 41% of the marine fisherfolk in Krishna district had at least primary level of education. Other prominent districts were East Godavari (38%), Srikakulam (36%), Visakhapatnam (35%), West Godavari (32%), Prakasam (31%) districts.
- The proportion of unschooled fisherfolk was highest in Vizianagaram district.

Occupation

- There were 1,50,868 active fishermen of whom 1,27,837 were fulltime fishermen, 19,373 part-time and the rest engaged in fish seed collection.
- About 76% of fisherfolk excluding children, were occupied with active fishing (52%) and fishing allied activities (24%).
- There were 1,40,089 fisherfolk engaged in fishing allied activities, such as labourers (46%), marketing (28%), curing/processing (12%), making/repairing net (10%) and peeling (2%).
- Women outweighed men in fishing allied activities accounting for about 75%. Among the major fishing allied activities, women dominated in curing/processing (92%), marketing (89%) and labourer (74%).
- Largest number of fisherfolk engaged in fishing allied activities belonged to Srikakulam district (22%) whereas this was only 1% in West Godavari district.

- Major share (83%) of those engaged in labour activity belonged to the districts of Srikakulam (22%), Visakhapatnam (18%), East Godavari (17%) and Nellore and Guntur (13% each).
- Visakhapatnam (24%), Srikakulam (22%) and East Godavari district (21.5%) districts accounted 67.5% of those involved in marketing of fish.
- About 52% of the fisherfolk engaged in curing/processing belonged to Srikakulam, East Godavari and Visakhapatnam districts.

Religion

- Hindus constituted 99% of the total fishermen families.
- Only 1% of the fishermen families belonged to SC/ST.

Membership in co-operatives

- 32% of the adult fisherfolk were having membership in co-operative societies of which 31% were in fisheries co-operative societies. This proportion was highest in East Godavari district.

Craft in the fishery

- There were 31,741 crafts in the fishery of which 3167 were mechanized, 10,737 motorized and non-motorized formed the rest.
- Gillnetters (52%), trawlers (42%) and ringseiners (6%) were the main crafts in the mechanized sector.
- No mechanized crafts were observed in the fishery of Srikakulam, Vizianagaram and Nellore districts.
- In Andhra Pradesh, of the total 1341 trawlers, 43% belonged to Visakhapatnam, 36% to East Godavari and 11% to Guntur districts, which altogether constituted 90%.
- Mechanized gillnetters were mainly observed in Krishna (56%), East Godavari (32%) and Guntur (9%) districts.
- Mechanized ringseiners were observed only in East Godavari district.
- Majority of the motorized crafts were operated in Nellore, Visakhapatnam and Prakasam districts, while non-motorized crafts were more in Visakhapatnam, Srikakulam and East Godavari districts.

Craft/Gear owned by the fisherfolk

- There were 31,168 crafts owned by fisherfolk, of which 2,447 were mechanized, 3,965 motorized and 24,756 non-motorized.
- Gillnetters accounted for 35% of the mechanized crafts owned by fisherfolk, followed by trawlers (25%).
- Though no mechanized crafts were in operation in Srikakulam, Vizianagaram and Nellore districts, fishermen owned mechanized crafts like trawlers, gillnetters, ringseiners and liners which were operated in other districts or states.
- Important gears owned by fisherfolk were trawl nets, gill nets, drift nets, seines, hooks & lines and cast nets. Sharing pattern was more visible in gill nets, seines, trawl nets, cast nets, hooks & lines and fixed nets.

Infrastructure

- In Andhra Pradesh, 70% of the fishermen houses were pucca houses.
- There were 571 primary schools, 99 secondary schools, 9 colleges and 9 technical institutions in the fishing villages of Andhra Pradesh.
- Most of the villages were electrified, 50% of the fishing villages had bus stop/ bus stand and 96% had cell phone coverage.
- There were 85 ice factories, 38 peeling sheds, 32 boat yards, 31 curing yards, 22 cold storages, 16 freezing plants, 12 processing plants and 4 fish meal plants in Andhra Pradesh.
