

Olive ridely turtle stranded at Thambankadavu, Thrissur

K. G. Baby

Central Marine Fisheries Research Institute, Kochi

A large olive ridely turtle was found stranded in dead condition near Thalikulam Landing Centre at Thambankadavu (Thrissur District, Kerala) on 19.04.2012. The specimen weighed around 60 kg and length was 78 cm in length. Since the specimen was found in semidecomposed condition, other morphometric measurements are not available
