Capture and trade of these species in any form is liable to be punished under the Indian Wild Life (Protection) Act, 1972

Family: Carcharhinidae
Carcharhinus hemiodon (Max length 2 m)
Pondicherry shark
IUCN status: Critically endangered
Cause: Overfishing

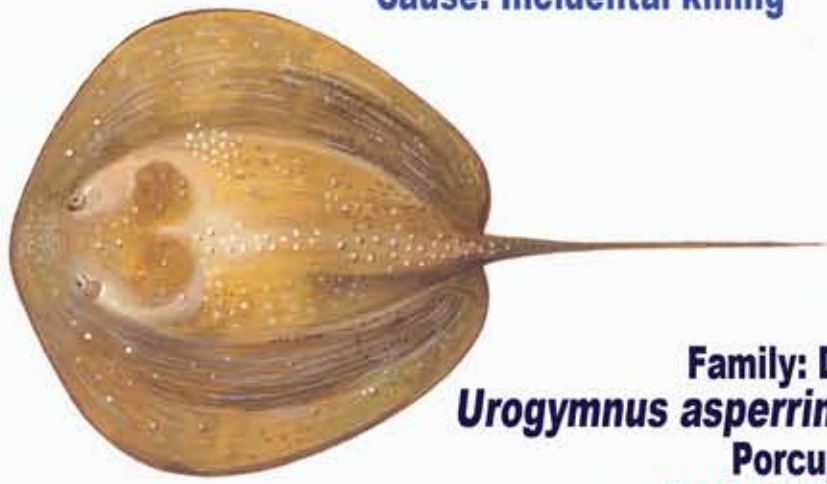

Family: Carcharhinidae
Glyphis gangeticus (Max length 2 m)
Ganges shark
IUCN status: Critically endangered
Cause: Overfishing & habitat degradation

Family: Carcharhinidae
Glyphis glyphis (Max length 3 m)
Spear-tooth shark
IUCN status: Endangered
Cause: Incidental killing

Family: Rhincodontidae
Rhincodon typus (Max length 12 m)
Whale shark
IUCN status: Vulnerable
Cause: Harpoon fishing

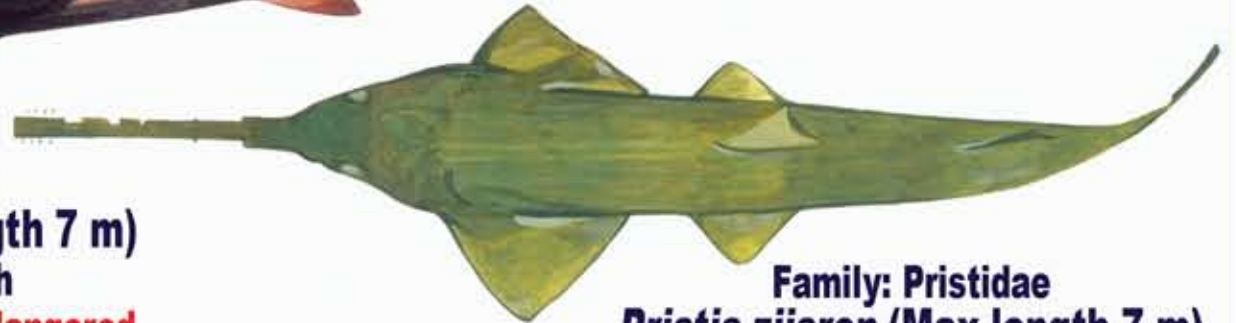

Family: Dasyatidae
Urogymnus asperrimus (Max length 1.5 m)
Porcupine ray
IUCN status: Vulnerable
Cause: Incidental killing

Family: Dasyatidae
Himantura fluviatilis (Max length 1.5 m)
Ganges sting ray
IUCN status: Vulnerable
Cause: Overfishing & habitat degradation

Family: Pristidae
Pristis pristis (Max length 7 m)
Large tooth sawfish
IUCN status: Critically endangered
Cause: Overfishing & habitat loss

Family: Pristidae
Pristis zijsron (Max length 7 m)
Green sawfish
IUCN status: Critically endangered
Cause: Overfishing

Family: Pristidae
Anoxypristis cuspidata (Max length 4.5 m)
Knifetooth sawfish
IUCN status: Endangered
Cause: Overfishing & habitat degradation

Family: Rhynchobatidae
Rhynchobatus djiddensis (Max length 3 m)
Giant guitarfish
IUCN status: Vulnerable
Cause: Overfishing
