VARNA SERIES OF MARINE ORNAMENTAL FISH FEED

Available in different pellet sizes
(250, 500 & 750 microns, 1mm and 1.5 mm)

Patented formulation (Patent No.: 415056)

Scientifically evaluated marine ornamental fish feed having not less than 38% protein, 9% fat, 7% minerals and 39% carbohydrates

Contains marine protein, soy protein, wheat flour, vitamins, minerals, carotenoids, immune promoters, probiotics and antioxidants

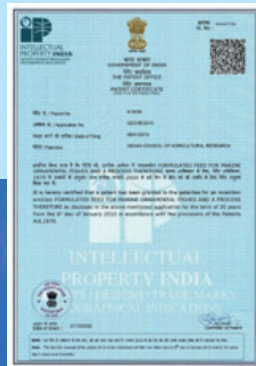

Recommended usage: Feed 2-3 % of the fish body weight once in a day.

Capable of maintaining growth, health, colour and vigour of the fishes.

Scientifically evaluated and standardized feed.

Quality assured with all essential ingredients.

The slow sinking crumbles are produced through twin screw extrusion technology which is the state of art in aquatic feed production.

VARSHA- FRESHWATER ORNAMENTAL FISH FEED

A colour enhancing economical diet for freshwater ornamental fishes

Extruded ornamental fish feed containing different natural colour enhancing agents optimally formulated along with marine source ingredients with protein and lipid profile of 45 and 6% respectively

BROODSTOCK FEED FOR ORNAMENTAL FISH

Specially formulated feed for ornamental fish broodstock

Adequately rich in essential nutrients to ensure high fecundity, good larval quality and survival

Enhances the health and condition of broodstock

Contains Protein- min. 42%, and Fat- 8%

*Ornamental fish feeds are available through the ATIC sales counter at ICAR-CMFRI, Kochi
