

CMFRI launches nutraceutical to boost liver health

Kochi: State is highly prospective for the development of nutraceuticals and govt is on a mission to foster linkage between research institutes and industry, industries minister P Rajeev said here on Monday.

He was speaking after launching a seaweed-based nutraceutical product developed by Central Marine Fisheries Research Institute (CMFRI).

CMFRI transferred the technology to Emineotech Pvt Ltd, which is commercially producing it as GreenRex™. The product is a unique blend of 100% natural bioactive ingredients extracted from select seaweeds. TNN
